MISHA® Knee System
MISHA™ Randomized Study
00:00:60 Radio Script

Announcer Read:

Are you discouraged by the burden of knee pain? Does knee pain limit your daily activities? If so, you may have knee arthritis, and there is a new treatment option less invasive than knee replacement.

Right now, doctors at (Site Name) (in City) are conducting a research study of an FDA cleared device called the MISHA® Knee System, a new procedure designed to reduce pain and improve function without cutting any bone, ligaments or cartilage.

If you've been struggling with pain on the inner side of your knee, and haven't had lasting relief through other treatments, this study may be right for you.

If you qualify and choose to participate, you will be treated by a local orthopedic specialist at (Site Name), and will receive study-related care at no cost to you.

So, if you're frustrated by pain or aching in your knee, please call [Number] to see if this study may be right for you. Or can visit [Website]. That's [Number] or visit [Website]. Please call [Number] or visit [Website].
